Principal's Foreword

" There is always one moment in childhood when the door opens and lets the educator -the facilitator who brings a child closer to his inner potential, his social - emotional self and to life itself. Our commitment to quality is evidenced by highly qualified teachers I, clean and modern, well equipped facilities. Our motto is to develop students all round performance and to lead the society.

We help children develop qualities that will make them secure and independence as they grow: self-confidence, enthusiasm for learning, social skills, wholesome attitudes, self-discipline and an organized approach to problem solving. We have a galaxy of success, the credit of the same goes to result-oriented and dedicated staff which takes care of students need successfully & tries its best to develop high order confidence among the students."

Characteristics of Student Body:

The multicultural nature of student body at CSEPS Deori is distinctive. Many students come from the families where English is their either second or third language, whereas Marathi is spoken as mother tongue by a big number of students at their homes, this adds a lot of linguistic diversity. Within the students' body there are students from different religious backgrounds such as Hindu, Muslim, Sikh ,Buddhist and Jains.

Approach to curriculum delivery:

Students are involved in their own learning journey.

Excellent learning and teaching approach across the school is outlined at the beginning of lessons.

Growth mindset towards learning is continuously promoted.

An expected disposition for being successful learners is continuously reinforced.

Audio-Visual Learning Experiences are promoted among the students across the year by teachers as well as Principal.

Seminars and Workshops are organized in order to support the students into their holistic psychological approach.

Educational Tours/Excursions are organized in order to give outer exposure to the students.

English Communication is encouraged among the students with due course of attention paid towards the same.

Teachers are trained well by CBSE Registered trainers either through online sessions or physically if possible.

Career guidance is also provided to the students and skill based education is promoted.

Engaging Students during Lockdown 1.0

Session was about to begin from 1st of April 2020 when the lockdown was imposed across the country amid COVID19 Pandemic. It was a huge challenge for the school to run in the wilds of Gondia district which is also a location in remote tehsil. Coping up with basic infrastructure issues and rigid mindset of parents towards online education, was not an easy task to be performed.

We started teaching our students in the very beginning of the session using Google Meet platform. Higher classes were given preference for online classes and eventually the lower classes were also added to the system. Little kids from Grade 1 to Grade 5 were given extra activities which could be easily performed being indoors even.

Session was taken forwards using online classes till 23rd Dec 2020. When government allowed the students from Grade 9 to attend the school physically they were welcomed wholeheartedly. State govt. allowed the students from the Grade 5 to Grade 8 from 27th Jan 2021 to visit the school regularly.

School conducted Periodic Test 1, Term 1 and Periodic Test 2 Exams in online mode only using Vawsum Schools Software, which was a milestone in conducting time bound objective as well as subjective exams. At the end of the session school conducted Annual Exam with physical presence of the students and concluded the same on 27th March 2021.

We were the only school in Tehsil to conduct Annual Exam successfully and declare the result on 5th April 2021.

Student attendance retention:

Approximate 45% of the students were able to engage themselves into live online classes and rest of the students was provided academic support over WhatsApp.

We hope that this ration in online classes would increase with increased awareness for online schooling among parents as well students.

Conclusion:

School looks forward for a fresh and new session with more enthusiasm among students for their academic progress.
